

# The Purpose of Prayer

*Unless we start understanding how to stand as Christians and how we should pray then our live(s) will be in Vain. The fivefold ministry is there to lead us into the three fold ministry - In Christ we are called to the three fold ministry:*

- 1. Kings.*
- 2. Priest's*
- 3. Judges.*

*That's why Jesus said that the movements of the saints is way more important than that of John the Baptist, As well he who wants to be the greatest has to serve - The Fivefold Ministry is to serve as were the three fold Ministry is to Govern,*

*These three positions with governmental authority and yet we live and pray out of expectation instead of being aware that you already have received. Jesus said that in Him we have inherited all the promises that the father gave to Him. We claim to be children of God and we claim to be shaped in His image and likeness and yet we live out of expectations that God has to solve all issues.*

*Does not Roman 10:32 state that the Word of God now lives in our heart? It even states - Now why are you climbing to Heaven to bring the Word down or why are you (climbing down) searching behind every rock or in every pit to bring the word up. Where is the word? (Jesus Christ) Is it not in our hearts?*

*Now if God created heaven and earth with that same word that now lives in your heart and if Jesus did all that He did through the authority of the word. Then why are we not fulfilling our commission from governmental perspective. Kings, Priest, Judges - Command, Demand and Rule.*

*Your situation or city or family is not changing or the fruits are so small because we expect from God that he does what He expects from us. The Lord cannot give you what He already gave.*

*WHEN oh WHEN will you wake up?*

*It is the lack of Passion - Desperation and the Fear of the Lord that leads to long unfulfilled prayer lives. When Jesus prayed He received immediately, likewise the apostles, yet we have received just as much as the Apostles. ARISE unless you have become the salt that has lost its strength*
